Dear Mr. Wilson:

On May 7, 1985, we met to discuss the above-captioned grievances at the fourth step of our contractual grievance procedure.

The question in these grievances is whether management violated Articles 19 and 37, specifically the Engineering Data Isolation Technique Handbook, PO-407, (M-16), Section 644 concerning the edit cumulative size.

During our discussion, it was mutually agreed that the following would represent a full settlement of these cases:

In accordance with the Handbook PO-407 subsection 644.b., the total cumulative sample pieces shall remain at 750.

Please sign and return the enclosed copy of this letter as your acknowledgment of agreement to settle these cases.

Sincerely,

Daniel A. Kahn
Labor Relations Department

Kenneth D. Wilson
