H1C-2W-C 10899

Dear Mr. Wilson:

This replaces the decision issued on April 18, 1984.

On March 27, 1984, we met to discuss the above-captioned grievances at the fourth step of our contractual grievance procedure.

These cases involve the use of employees qualified to operate flat sorting machines interchangeably on multi-position and single-position machines.

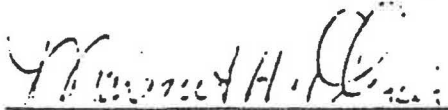

During our discussion, we agreed to resolve these cases based on our mutual understanding that a basic function of Flat Sorting Machine operators as described on both the position description and qualification standard for the position is to operate a single or multi-position machine. We also agreed that this resolution applies only to flat sorting machine operators.

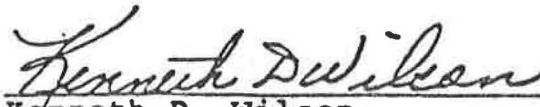

Mr. Kenneth D. Wilson
