SUBJECT: Maintenance Withholding – Busse PDC

On September 9, 2013 the Great Lakes Area office issued a withholding notice for the maintenance craft at the Busse PDC due to a review of the eWHEP and the Maintenance Management Order (MMO-057-12); reduction to the MOS clerk positions.

The Postal Service will be cancelling the withholding for the following impacted maintenance craft positions at the Busse PDC:

- Electronic Technician level PS-10;
- Maintenance Mechanic (MPE) level PS-9;
- Building Equipment Mechanic (MM) level PS-9; and
- Maintenance Mechanic (MM) level PS-7

In accordance with MMO-057-12, the Maintenance Support Clerk positions will remain impacted. It is anticipated that the Chicago District will be able to place the two (2) remaining impacted MOS clerks within the Busse PDC installation and there will not be a need to excess outside of the installation.

As information, the Postal Service will continue to review the need to properly staff the maintenance craft at this facility and will prepare if necessary a new impact statement and revised eWHEP if the need continues to exist to reduce staffing at this facility.

If you have any questions regarding this impact, please contact me.

A handwritten signature in black ink that reads "Nicole Collins-Earley".
