Maintenance Management Order UNITED STATES POSTAL SERVICE

SUBJECT: Preventive Maintenance Guidelines for DATE: May 17, 2006

Signode Bander

NO: MMO-055-06

TO: Maintenance Capable Offices FILE CODE: F8

same: mm06076aa

MAINTENANCE MANAGEMENT ORDER

This Maintenance Management Order (MMO) supersedes MMO-033-03. This MMO provides Preventive Maintenance (PM) guidelines for the Signode Bander with the corrected minimum skill levels.

The minimum maintenance skill level to perform each task on the various checklists is included in the Minimum Skill Level column. This does not preclude higher level employees from performing any of this work.

The work hours represented in this MMO reflect the maximum work hours required to maintain the equipment. Given local conditions, management may modify task frequencies.

WARNING

Various products which require Material Safety Data Sheets (MSDS) may be utilized during the performance of the procedures in this bulletin. Ensure the current MSDS for each product used is on file and available by all employees. When reordering such a product, it is suggested that a current MSDS be requested. Refer to MSDS for appropriate personal protective equipment.

WARNING

The use of compressed or blown air is prohibited. When cleaning is required, an alternative cleaning method such as a HEPA filtered vacuum cleaner or a damp rag must be used in place of compressed or blown air. A lint-free cloth or brush may be used only on optical equipment when other cleaning methods can not be used.

Maintenance Managers are to use these Preventive Maintenance guidelines when preparing the route sheets for local maintenance personnel.

Web Access: https://www1.mtsc.usps.gov

For questions or comments concerning this bulletin contact the MTSC HelpDesk, either online at MTSC>HELPDESK>Create/Update Tickets or call (800) 366-4123.
