Subject: Update Inquiry on Impacts

Good morning and Happy New Year!

I am requesting updates on the upcoming Feb Move Date Impacts. The Region requests the following information for each Impacted Installation:

1. The attrition applied to each impact and resulting actual number of employees to be involuntarily reassigned. This includes transfers, retirements, deaths, separations, etc.
2. The number of seniors in lieu of volunteers for each installation.
3. The preferencing awards for each installation.
4. The date the 30 day specific notices were or are to be issued.
5. If all impacted employees have been advised of their Retreat Rights process.
6. How many impacted employees did not secure a withheld residual assignment?
7. What is the date in which the Area/District/Installation Head will minimize the impact by separating PSEs when their hours yield sufficient hours for regular duty assignments?
8. Are there any close geographical area excessing at the same time?

Thank you,
